

**A place to collaborate.
A place to develop.**

With nearly 4,000 students in nine topic areas, the St. Pölten University of Applied Sciences is a key player in the Austrian higher education sector and one of the most important employers in the region. The St. Pölten UAS stands for unique creative possibilities as well as team-oriented collaboration and leaves room for individual development and personal growth. Staff members also profit from our European network within the context of the University Alliance E³UDRES²! The University of Applied Sciences is constantly growing. We are currently looking for a

Senior Researcher Physiotherapy Sciences (f/m/d) (40 h)

What you will be working on

- You initiate and manage exemplary research projects with a focus on physiotherapy and movement sciences, and you participate in ongoing research projects
- You further develop the research area Physio Science in close coordination with the research areas Dietetic Research, Nutrition Sciences, and Nursing Sciences
- You provide impulses for the sustainable development of interdisciplinary research in the Institute of Health Sciences and other research institutes of the St. Pölten UAS
- You commit yourself to knowledge transfer and innovation in close coordination with the business sector and society, and you take over relevant courses

What we expect from you

- A PhD with direct relevance for this research area (ideally, you are a physiotherapist by profession)
- Several years of research experience including experience in the submission of research proposals in the field of physiotherapy and movement sciences or related areas
- Internationally recognised research and publication activity as well as successful acquisition and management of research projects
- Very good ties to the international scientific community and partners from business and society in regional, national, and international contexts
- Excellent German and English skills
- Team spirit, commitment, and visionary thinking; flexibility and enthusiasm

What we offer

- Long-term employment (40 h) with many benefits, flexible working hours (remote work), free parking, etc.
- More free time for our staff: additional special leave days from 24/12 to 31/12 as well as on Good Friday
- Opportunity to actively contribute and implement own ideas in an innovative team
- A gross annual salary that takes your qualifications into account: at least € 63,700 (basis: 40 h/week)

➤ Your application is this way!

For the St. Pölten UAS, the variety and diversity of its staff members is the key to innovation, success, and further development. Applications by qualified women are particularly welcome. In the case of equal suitability, we give precedence to applicants with a disability. We explicitly invite persons with a migration background to apply. We are looking forward to receiving your application!
